Full Stack Web Developer

Results-driven professional web developer with five years of experience helping clients design, develop, maintain, and test complex applications.

WORK EXPERIENCE

Web Developer 2 12/2023 - Present

The University of Minnesota

Develop, enhance, and support complex Drupal 9/10/11 websites using PHP, Twig, JavaScript, HTML, and SCSS within the Folwell sub-theme.

• Implement and customize sub-themes to align Figma-based designs with university branding and accessibility standards.

• Build and configure content types, Paragraphs, Views, Layout Builder components, blocks, taxonomies, and entities to support scalable content authoring.

• Lead accessibility testing and remediation efforts across multiple University sites using PopeTech and Editoria11y, ensuring WCAG compliance.

• Independently conduct accessibility audits and remediation for Finance, Morris, Crookston, and Agriculture TCP websites.

• Collaborate with designers, writers, and developers, to iteratively review, validate, and deploy production-ready pages.

• Provide advanced support for existing Drupal sites, including content migrations, configuration updates, bug fixes, and front-end troubleshooting.

• Test and validate websites for usability, accessibility, performance, browser compatibility, and responsive behavior prior to launch.

• Contribute to shared solutions, documentation, and reusable patterns across university web properties.

• Use Git and GitHub for version control, peer collaboration, and code review.

Software Developer 06/2024 - 09/2024 (Contract)

Launch Theory LLC

- Configured the local development environment using Lando, ensuring seamless integration with Pantheon for continuous deployment.
- Assisted with codebase versioning and deployment workflows through Pantheon
- Assisted in developing a custom Drupal 10 theme using Sass for CSS preprocessing to optimize the site's styling for maintainability and scalability.
- Practiced using modular, reusable Sass variables and mixins for efficient styling across various site elements and components.
- Ensured responsive design principles were incorporated, allowing for a mobile-first, cross-browser-compatible theme.
- Implemented custom interactive functionality using jQuery.
- Customized Drupal Twig templates to tailor the presentation of content, ensuring alignment with design specifications.
- Performed extensive cross-browser and device testing to ensure the theme's responsiveness and interactivity worked seamlessly across platforms.

Web Developer 05/2023 - 11/2023

The University of Texas at Arlington

- Developed a React app utilizing Drupal's Scheduler module to automate digital signs in the central library.
- Developed a React Native app for library resources using Drupal's Headless CMS and other APIs.
- Maintained Drupal websites by performing monthly updates to Drupal Core and modules, exporting

and importing bulk data using feeds, creating and editing webforms, and updating web content.

- Leveraged mastery of HTML, CSS, and JavaScript, to build top-quality code for special projects.
- Implemented best practices across user interface design, navigation, accessibility, search engine optimization, security protocols, cross-browser consistency, website performance optimization, and mobile responsiveness.
- Assisted in raising UTA's library accessibility score guided by WCAG 2.1 AA standards, from 63 to 84.
- Assisted departments and other entities with planning, development, and implementation of web solutions.
- Developed graphics, images, and design prototypes for websites and social media
- Developed and maintained weekly reporting on website performance and analytics using Google Analytics 4.
- Oversaw and maintained websites using one of the following content management systems: Drupal, Omeka, BePress, and LibApps.
- Worked in partnership with system administrators.

EDUCATION

Wiley College - *Marshall, TX*

Bachelor of Arts - Computer Information Systems, May 2015

PROFESSIONAL SKILLS

- JavaScript, Typescript, PHP, React.js, React Native, Drupal, Shopify, Node.js

CERTIFICATIONS

- CompTia A+ Certified CE
- Cisco Certified Network Associate Routing and Switching (CCNA Routing and Switching).
